

Leeloo

Your Supreme Being in Your Pocket

AI-powered personal operating system that empowers working mothers to unlock their supreme potential

Problem

42M Working Mothers Are Drowning in Overwhelm

01 73% Feel Constantly Overwhelmed

Working mothers juggle personal, family, and professional responsibilities with no support system

02 Non-Type-A Women Struggle Most

They don't know where to start with goal-setting and task management—paralyzed by overwhelm

03 Human Support Is Unaffordable

Personal assistants cost **\$2K-6K/month**, life coaches **\$800-2K/month**—completely out of reach

04 Existing Apps Lack Guidance

Productivity tools are just digital to-do lists—no coaching, no emotional intelligence, no real support

Your Supreme Being in Your Pocket

"Just as The Fifth Element's Leeloo was the supreme being sent to save humanity, our Leeloo is the AI assistant designed to save working mothers from overwhelm—helping them unlock their supreme potential."

Virtual Personal Assistant

Autonomous task management, proactive schedule organization, weekly planning meetings, seamless integration

Life/Career Coach

Goal-setting guidance, progress tracking, strategic planning, entrepreneurial support and resources

Spiritual Motivator

Optional faith-based encouragement, values alignment, compassionate and empathetic support

Exceptional Value

\$150/month

Delivers the combined value of a \$3,000+/month personal assistant and life coach—a **95% cost savings** with 24/7 support

- ✓ Conversational AI with contextual memory
- ✓ Emotional intelligence and empathy
- ✓ Proactive planning, not reactive lists
- ✓ Built by experienced development team

The Only Integrated AI Solution with Powerful Brand Story

The Fifth Element Brand Power

Instantly recognizable cultural reference (\$263M box office). Leeloo = "the chosen one"—working mothers ARE the chosen ones. Supreme being symbolism creates emotional connection and identity.

Authentic Founder-Market Fit

Founder is working mother who lives this problem daily. Deep empathy and understanding of target user. Not building for a market—building for herself and women like her.

Integrated Solution vs Point Solutions

Competitors focus on single use cases: scheduling OR writing OR chat. Leeloo combines assistant + coach + motivator in unified experience with contextual memory.

Premium Positioning in Underserved Tier

Basic tools (\$10-30/month) too limited. Human services (\$2,000+/month) too expensive. Leeloo (\$150/month) is the sweet spot of comprehensive value at accessible price.

Emotional Intelligence + Proactivity

\$42B Market Today, Growing to \$142B by 2030
